SPA1260/12

Dynamic sound

with this PC speaker

With their powerful 3-W RMS stereo output and ultra-chic, high-gloss finish, Philips SPA1260/12 speakers look every bit as classy as they sound!

Benefits

Rich, complex sound

- 3 W RMS total output power
- Bass Reflex Speakers deliver deep and powerful bass
- Well damped driver reduces vibration and sound distortion

Contemporary design

- Attractive high gloss finish

Simplicity

- Compatible with any media
- Convenient aux-in and headphone out on front of speaker

Features

Bass Reflex Speakers

A chamber behind the speaker driver channels air to the acoustically tuned vents built into the speaker, giving the bass notes a more punchy, realistic sound.

High gloss finish

High-gloss 'Piano black' finish looks simply superb in both classic and modern interiors.

PHILIPS

AUX-in and headphone out

Now you can enjoy your favourite music and entertainment even easier and more conveniently, via the aux-in and headphone out jack on the front of these speakers. Usually, if you want to connect another device other than your PC you have to unplug the 3.5 mm jack from the computer and that is

not always expedient. But with the aux-in and headphone out connections on front you can quickly and easily listen to music straight from almost any device.

Well damped driver

A single speaker driver normally incurs a specific frequency division vibration near the edge of the diaphragm, often resulting in some sound distortion. The way to overcome this problem is by using Mylar, a uniform monomer and a much lighter material that is more usually used, around the driver cone. Surrounding the cone in a perfectly symmetrical ring, the resulting damping effect suppresses the asynchronous vibration, resulting in a more balanced and natural sound.
