

MPN: VLFS-FLEXI

Mobile Base Stand for Vivolink FlexiLift w/4" casters

FlexiLift Mobile Stand – Flexible and Mobile Display Solution

The Vivolink FlexiLift Mobile Stand is a versatile and mobile stand designed for use with VLMW-FLEXI-M and VLMW-FLEXI-L, providing a smart and flexible solution for height-adjustable displays.

The stand is equipped with four large 4" casters, making it easy to maneuver, even over door thresholds and cable ducts, enhancing mobility in various environments.

For a more streamlined and clean look, two optional front panels are included, which can be mounted on the stand. Additionally, a practical storage box is provided, which can be installed either at the top or bottom of the stand. The box features cable management openings and allows for the installation of a power strip.

The stand also includes integrated cable management pathways in the mounting frame, ensuring a neat and organized setup.

This solution is ideal for environments where flexibility and mobility are essential, allowing for a height-adjustable display setup that can be moved easily and securely.

Note:

VESA mount is not included in the box.

Matching VESA mount: VLMW-FLEXI-L or VLMW-FLEXI-M

Specifications
