

ThinkCentre neo 30s Gen 5

In today's technology-driven world, professionals look for devices that can handle complex tasks, streamline operations and boost productivity. The ThinkCentre Neo 30s Gen 5 is equipped with 13th Gen Intel Core i7 processor to handle demanding applications such as data analytics, engineering simulations and content creation. The Intel Arc A310 LP Graphics paired with the integrated Intel UHD Graphics offers flexibility for everyday tasks like browsing, presentations, and video conferencing, without sacrificing power or efficiency. The 64GB DDR5 memory ensures smooth execution of resource-intensive processes whereas the up to 1TB SSD storage provides plenty of room for repositories, files and documentation.

Rugged compact performance primed for business

ThinkCentre Neo series offers organizations enhanced manageability and security features, along with additional configuration and expansion options.

This device's robust security features, including Firmware TPM 2.0, Kensington Security Slot, Padlock Loop, and Chassis Intrusion Switch, ensure that professionals can focus on what matters most- driving sales, providing excellent customer service and optimizing operations—without worrying about data breaches or equipment theft.

The high-quality HD audio ensures that every sound is high quality, providing superior clarity, while the fast Wi-Fi connectivity facilitates higher bandwidth, low latency and help users connect with larger teams without any hassle.

The device is ENERGY STAR 8.0, EPEAT Gold and Silver certified, making it power and energy efficient.
