## INFORMATION

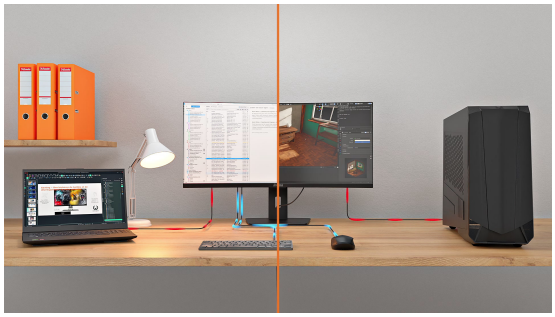

# 34’’ UWQHD curved monitor with USB-C dock, LAN, KVM switch and 15cm height adjustable stand

The XCB3497WQSNP is a 34-inch curved monitor that incorporates a KVM switch and a USB-C dock to simplify your workspace. The KVM switch enhances multitasking by allowing you to control multiple computers from a single monitor, keyboard, and mouse. The USB-C dock reduces cable clutter and simplifies connectivity even further, allowing a single cable to carry video, data, and power to charge your notebook. Additionally, when the monitor is connected to a LAN network, your notebook automatically gains network access. The VA panel technology delivers high contrast and deep black levels and wide viewing angles for consistent image quality regardless of your position for a richer and more vivid viewing experience.

For optimal comfort, the 15cm height-adjustable stand allows you to customize the screen position, while the Flicker-Free panel and Blue Light reduction function help minimize eye strain.

## FEATURES

### Easy multi-device control with KVM

Easily switch between multiple computers using one monitor, keyboard, and mouse, making multitasking smooth and efficient.

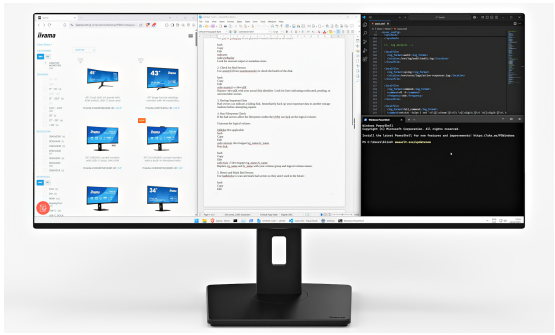

### USB-C dock for tidy desk & easy connectivity

Connect everything with just one cable — handle video, data, and power while keeping your desk clean and organized.

### Curved for immersive viewing

Step into an immersive, natural viewing setup that minimizes distortion and reduces eye strain during long work or entertainment sessions.

### Multitasking with ultra-wide QHD

Get more space to multitask, compare documents side by side, or fully immerse in your content without switching windows.
