

# Wall cabinet Network Rack

19", single section, with removable side panels

## Distinguishing mark: 100% safety

Techly Professional cabinets are the result of an innovative project that meets the needs of structured cabling in data networks and telecommunications as well as of small home installations.

-  **Convenience and affordability:** two pairs of adjustable rails (in the front and in the rear) easily adjustable, removable side panels for a **quick installation of the device and rack accessories**.
-  **Quick assembly:** supplied pre-assembled, ready for use.
-  **Safety:** with key lock also on side panels against unauthorized access.
-  **Strength:** solid structure welded cold rolled steel ensures a static load up to 60 kg.
-  **Versatility:** two pairs of 19" adjustable 1,5 mm rails with scale; removable blank side panels; removable blank back panel; temperate front glass door, reversible, with key lock and opening angle greater than 180°. Slits in the upper and lower parts of the front and side panels for air flow. Top is ready for mounting two x 120 mm fans.
-  **Accessories:** wide range of accessories to meet the needs of designers and installers. With grounding kit and mounting screws kit included.
