Congratulations!

You have just purchased an ENERGY STAR® qualified product

What is an ENERGY STAR® qualified product?

ENERGY STAR is a program run by the U.S. Environmental Protection Agency (EPA) and U.S. Department of Energy (DOE) that promotes energy efficiency.

This product qualifies for ENERGY STAR in the “factory default” settings and this is the setting in which power savings will be achieved.

Changing the factory default picture settings or enabling other features will increase power consumption that could exceed the limits necessary to qualify for ENERGY STAR rating.

Say hello to a more sustainable product

IT products are associated with a wide range of sustainability risks throughout their life cycle. Human rights violations occur in the supply chain. Harmful substances are used both in products and their manufacture. Products can often have a short lifespan because of poor ergonomics, low quality and when they are not able to be repaired or upgraded.

This product is a better choice. It meets all the criteria in TCO Certified, the world's most comprehensive sustainability certification for IT products. Additionally, it fulfills the requirements of TCO Certified Edge, the supplemental certification that recognizes leading-edge products that exceed typical performance in a particular sustainability attribute. At our Product Finder (tcocertified.com/product-finder) you can find out which TCO Certified Edge criterion or criteria this product meets.

Criteria in TCO Certified have a life-cycle perspective and balance environmental and social responsibility. Compliance is verified by independent verification organizations that specialize in IT products, social responsibility or other sustainability issues. Verification is done both before and after the certificate is issued, covering the entire validity period. The process also includes ensuring that corrective actions are implemented in all cases of factory non-conformities.

Thank you for making a responsible product choice, that help drive progress towards a more sustainable future!

Important Battery recycling and WEEE information

Take back and recycling information for WEEE and batteries/accumulators in the European Union and the United Kingdom

The crossed-out wheeled bin marking applies only to countries with WEEE and batteries waste regulations including the European Union (EU), and United Kingdom (UK).

Appliances and batteries/accumulators are labeled in accordance with local regulations concerning waste electrical and electronic equipment (WEEE) and waste batteries and waste accumulators. These regulations determine the framework for the return and recycling of used appliances and used batteries/accumulators as applicable within each geography. This label is applied to various products to indicate that the product is not to be thrown away, but rather put in the established collection systems for reclaiming these end of life products.

The label on the battery may also include a chemical symbol for the metal concerned in the battery (Pb for lead, Hg for mercury, and Cd for cadmium).

Users of electrical and electronic equipment (EEE) and users of batteries/accumulators with the crossed-out wheeled bin marking must not dispose of end of life products as unsorted municipal waste, but use the collection framework available to them for the return, recycle, and recovery of WEEE and waste batteries/accumulators and to minimize any potential effects of EEE and batteries on the environment and human health due to the presence of hazardous substances.

Lenovo electrical and electronic equipment (EEE) may contain parts and components, which at end-of-life might qualify as hazardous waste.

EEE and waste electrical and electronic equipment (WEEE) can be delivered free of charge to the place of sale or any distributor that sells electrical and electronic equipment of the same nature and function as the used EEE or WEEE.

Before placing electrical and electronic equipment (EEE) in the waste collection stream or in waste collection facilities, the end user of equipment containing batteries and/or accumulators must remove those batteries and accumulators for separate collection.

Dispose of lithium batteries and battery packs from Lenovo products:

A coin-cell type lithium battery might be installed inside your Lenovo product. You can find details about the battery in the product documentation. If the battery needs to be replaced, contact your place of purchase or contact Lenovo for service. If you need to dispose of a lithium battery, insulate it with vinyl tape, contact your place of purchase or a waste-disposal operator, and follow their instructions.

Your Lenovo device might contain a lithium-ion battery pack or a nickel metal hydride battery pack. You can find details on the battery pack in the product documentation. If you need to dispose of a battery pack, insulate it with vinyl tape, contact Lenovo sales, service, or your place of purchase, or a waste-disposal operator, and follow their instructions. You also can refer to the instructions provided in the user guide for your product.

For proper collection and treatment, go to: <https://www.lenovo.com/environment>

Important WEEE Information

The WEEE marking on Lenovo products applies to countries with WEEE and e-waste regulations (for example, European Directive 2012/19/EU, India E-Waste Management & Handling Rules, 2016). Appliances are labeled in accordance with local regulations concerning waste electrical and electronic equipment (WEEE). These regulations determine the framework for the return and recycling of used appliances as applicable within each geography. This label is applied to various products to indicate that the product is not to be thrown away, but rather put in the established collective systems for reclaiming these end of life products. Users of electrical and electronic equipment (EEE) with the WEEE marking must not dispose of end of life EEE as unsorted municipal waste, but use the collection framework available to them for the return, recycle, and recovery of WEEE and to minimize any potential effects of EEE on the environment and human health due to the presence of hazardous substances. For additional WEEE information go to: <http://www.lenovo.com/recycling>

Wichtige WEEE-Hinweise

Die WEEE-Kennzeichnung von Lenovo-Produkten gilt für Länder mit WEEE- und e-waste-Vorgaben (beispielsweise europäische Richtlinie 2012/19/EU, India E-Waste Management & Handling Rules, 2016). Geräte werden in Übereinstimmung mit lokalen Vorgaben hinsichtlich elektrischen und elektronischen Altgeräten (WEEE) gekennzeichnet. Diese Vorgaben geben die Rahmenbedingungen zur Rückgabe und zum Recycling von Altgeräten innerhalb einzelner Regionen vor. Unterschiedliche Produkte werden mit dieser Kennzeichnung versehen, die signalisiert, dass das jeweilige Produkt nicht weggeworfen, sondern zur Rückgewinnung bei speziellen Sammelstellen abgegeben werden soll. Elektrische und elektronische Geräte (EEE) mit WEEE-Kennzeichnung dürfen nach Gebrauchsende nicht mit dem unsortierten Hausmüll entsorgt werden, sondern müssen über das etablierte Sammelstellennetz rückgegeben und recycelt werden, um mögliche negative Auswirkungen auf Umwelt und Gesundheit durch gefährliche Substanzen zu minimieren. Tento štítek se používá u různých výrobků a označuje, že po ukončení životnosti nemá být výrobek vyhozen, ale odevzdán do systému hromadného sběru k recyklaci. Uživatelé elektrického a elektronického vybavení (EEE) s označením WEEE nesmí likvidovat EEE s ukončenou životností jako netříděný komunální odpad, ale musí využít dostupný sběrný systém k odevzdání,

recyklaci a obnovení WEEE a k minimalizaci jakýchkoli možných dopadů EEE na životní prostředí a lidské zdraví z důvodu přítomnosti nebezpečných látek. Další informace o WEEE najdete na: <http://www.lenovo.com/recycling>.

Laitteet on merkitty paikallisten sähkö- tai elektroniikkajätettä (WEEE) koskevien säädösten mukaisesti. Nämä säädökset määrittävät puitteet käytettyjen laitteiden palautukselle ja kierrättämiselle soveltuvasti kullakin maantieteellisellä alueella. Tätä merkintää käytetään erilaisissa tuotteissa ilmaisemaan, että tuotetta ei saa heittää pois, vaan se on toimitettava paikalliseen keräyspisteeseen, jotka huolehtivat näistä käyttöikänsä päin saavuttaneista tuotteista. WEEE-merkinnällä varustettujen sähkö- ja elektroniikkalaitteiden (EEE) käyttäjät eivät saa hävittää käyttöikänsä lopun saavuttaneita EEE-tuotteita lajittelemattoman kotitalousjätteen mukana, vaan heidän on toimitettava tuotteet keräysjärjestelmään, jossa ne voidaan kierrättää ja ottaa uudelleen käyttöön WEEE-säädösten mukaisesti minimoiden samalla kaikki EEE-tuotteiden vaarallisista aineista johtuvat mahdolliset riskit ympäristölle ja terveydelle. Fontos WEEE-információ

A Lenovo termékein található WEEE-jelölés azon országokra vonatkozik, ahol WEEE és e-hulladékról szóló szabályozás van érvényben (például a 2012/19/EK sz. európai irányelv, indiai e-hulladékkezelési és feldolgozási szabályok.). A készülékek címkézése az elektromos és elektronikus berendezések hulladékával (WEEE) kapcsolatos helyi szabályok szerint történik. E szabályok megállapítják az elhasznált készülékek visszavételének és újrahasznosításának keretrendszerét az egyes földrajzi területeken. Ez a címke különböző termékekre kerül annak jelzésére, hogy a terméket nem szabad kidobni, hanem az élettartamuk végére ért termékek visszanyerésére rendszeresített begyűjtő rendszerekbe kell juttatni őket. A WEEE-jelöléssel ellátott elektromos és elektronikus berendezések (EEE) felhasználóinak nem szabad az élettartamának végéhez ért EEE-t szelektálatlan háztartási hulladékként elhelyezni, hanem a WEEE visszavétele, újrahasznosítása és visszanyerése, illetve az EEE-nek a veszélyes anyagok jelenléte miatt a környezetre és az egészségre gyakorolt potenciális hatásainak minimálisra csökkentése érdekében rendelkezésre álló keretrendszer kell igénybe venniük.
