

HDMI 2.0 4K@60Hz switch with eARC/ARC audio splitter for soundbar

IDATA HDMI2-4K2EARC

IDATA HDMI2-4K4EARC

Features:

- ▶ HDMI switch with 2/4 inputs depending on the model
- ▶ Two HDMI outputs one of which dedicated to audio only reliably transmits two HDMI source signals to the HDMI output, supporting the eARC function
- ▶ EARC (Enhanced Audio Return Channel) allows you to transmit an audio signal at full original resolution through an HDMI cable and reproduce the best audio without compromise
- ▶ It's possible to use this audio splitter to emulate an eARC port of the source device and output high quality sound to the remote connected soundbar or TV
- ▶ Max video resolution: ultra HD 4K 2160p
- ▶ Plug and play
- ▶ Works with SONOS ARC / BOSE 500 / BOSE 700 and ANY eARC / ARC AVR and soundbar
- ▶ HDMI 2.0b, compatible with HDCP 2.2, 18 Gbps
- ▶ Up to 4K60 RGB / YCBCR 4: 4: 4 8 bit
- ▶ Through HDR, HDR10, HDR10 +, Dolby Vision

Package contents:

- ▶ 1 x HDMI 2.0 switch
- ▶ 1 x power supply
- ▶ 1 x user's manual
