

# Lenovo V14 G4 AMN

This 14" device powered by AMD Athlon or up to AMD Ryzen 5 processor ensures seamless management of web-based applications and productivity software for business professionals. It comes with up to 47Wh integrated Li-Polymer battery that supports rapid charge, enabling users to work from anywhere without hassle. Plus, a slew of security features such as a power-on password, Kensington nano slot, camera shutter, and an integrated TPM 2.0 chipset keep data safe and encrypted.

## Redefining possibilities with powerful performance and groundbreaking on-device AI

Combining security and productivity features with a simple design, powerful technology, and all-day battery life, Lenovo V Series laptops are perfect for small business professionals who demand long-term performance and reliability.

Configured with up to 512GB SSD and up to 16GB LPDDR5 memory, this device ensures better system responsiveness and helps professionals with faster retrieval of project files or memory-intensive spreadsheets.

Multimedia features include Dolby Audio dual 1.5W stereo speakers and noise-canceling dual-array microphones that help mobile professionals to have digital meetings on the go without any distractions.

Dolby Audio dual 1.5W stereo speakers and noise-canceling dual-array microphones help professionals to have digital meetings on the go without any distractions.
