Lenovo Smart Charger

Integrated. Perfect length.

Introducing our smart charger, expertly designed for Chromebook users, with the capability to charge five laptops at once while monitoring their battery levels. This efficient solution outshines bulky and expensive traditional chargers, making it an ideal choice for educational institutions and business decision makers facing multi-device charging challenges. Designed for the needs of education IT administrators and business decision makers, it provides a practical, compact, and user-friendly charging solution.

Why you need the Lenovo Smart Charger

Simultaneous multi-device charging

Experience the convenience of charging five Chromebook laptops at once. Our smart charger eliminates the hassle of managing multiple charging stations and allows users to efficiently power up their devices, ensuring that classrooms and offices are always ready for action.

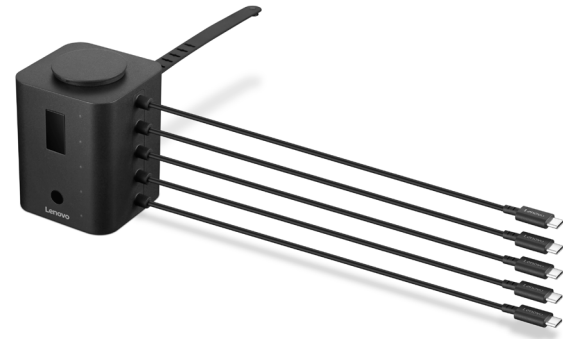

Integrated USB-C connectivity

Equipped with five integrated USB-C cables, each measuring 30 cm in length, our smart charger is designed for versatile charging scenarios. Whether in tight spaces or open environments, it provides the flexibility needed to keep devices powered without the clutter of excess cables, making it perfect for various settings.

Enhanced display support

Stay informed with the built-in display screen that provides real-time information on charging status and battery capacity. This feature enables users to monitor the charging process effectively, ensuring devices are charged efficiently and allowing for better management of classroom or office resources.
