Highlights

Ambilight TV

Ambilight TVs are the only TVs with integrated LED lights on the back that react to what you watch, immersing you in a halo of colorful light. It changes everything: your TV seems bigger, and you'll be drawn deeper into your favorite sports, movies, music, and games.

OLED Ambilight TV

The lifelike picture of your 4K (UHD) OLED Ambilight TV always looks incredible, even if viewed at an angle. Blacks are always black, not gray, and you'll see every detail in shadows or bright areas. All major HDR formats are supported—you'll feel the full power of every scene.

P5 AI perfect picture engine

Philips P5 processor with AI delivers a picture so real it feels like you could step right into it. A deep-learning AI algorithm processes images in a

manner similar to the human brain. No matter what you're watching, you get lifelike detail and contrast, rich color, and smooth motion.

Cinematic viewing

Hold onto the edge of your seat! With Dolby Vision on board, you'll see the picture the director wanted you to see, no more disappointing scenes that are too dark to make out! Movies to games, say hello to every glorious detail.

Surround sound technology

Compatibility with Dolby Atmos and DTS:X takes the sound of this TV to another level, in any room. The latest movies, the newest games, the biggest sports events: with sound effects placed in the space above and around you, you'll feel like you're right in the middle of the action.

Total Gaming Solution

HDMI 2.1, 120 Hz native refresh rate, and an ultra-low input lag. Indie game or AAA title, this Ambilight TV gives you the specs you need to

game how you want! For more control, Game Bar 2.0 lets you customize how you play, and you can connect a Bluetooth controller for cloud gaming.

Philips TV Titan OS smart platform

It's quick and easy to find what you love with our Titan OS smart TV platform. You can continue watching a series straight from the home screen, get suggestions from the top streaming services, and create watchlists. You can also reorganize the home screen, so your favorite apps and channels are just where you want them.

Seamless control

Seamless compatibility with Matter means you can easily integrate this 4K Ambilight TV into your existing smart home network. You can also use the TV remote to control your satellite or cable box or wake the TV's built-in Alexa—and the TV is compatible with Google smart speakers and Apple AirPlay too.

Thoughtful design

The sleek design looks sophisticated in any room—and Ambilight creates mesmerizing mood lighting when the screen's off. The slender TV remote is made from recycled plastic, our packaging uses FSC-certified recycled cardboard, and the inserts are printed on recycled paper.
