**Wall charger 30W with retractable USB-C to USB-C cable and USB-C port**

## Technical features:

- Total Output: 15W
- 1xUSB-C 30W Power Delivery
- 1xUSB-C cable 30W Power Delivery
- 90cm USB-C to USB-C 3A retractable cable integrated
- Charging optimization for battery preservation
- Overload and short circuit protection circuit

## Compatibility:

All Smartphone and tablet

## DESCRIPTION

**WALL CHARGER 30W WITH RETRACTABLE CABLE** is a solution designed for all devices compatible with 30W charge and below. Both the USB-C port and the USB-C to USB-C retractable cable, equipped with 30W PD charging, enable an efficient charging for all brands.

Also, the white 90cm long retractable white cable, together with the USB-C port, not only makes the charger perfect for travel, but also enables simultaneous charging of up to two devices at the same time, still maintaining compact dimensions.

This charger is equipped with **GaN technology**: this technology is based on gallium nitride, a material recently used in semiconductors inside battery chargers. The main advantage of gallium nitride in relation to battery chargers is that it produces less heat. The lower heat generation allows the components to be closer together and, consequently, reduces the size of the chargers.
