

Lenovo 13w 2-in-1 Gen 3

Powered by the Intel® Core™ processor, the chic Lenovo 13w 2-in-1 Gen 3 delivers a significant upgrade in both performance and efficiency, making it the perfect choice for educators and administrators wanting enhanced productivity. The integrated Intel Graphics accelerates processing speeds and optimizes multitasking while working on complex learning applications. With a long-lasting 54.7Wh battery supporting rapid charge, professionals can enjoy up to 15.32 hours of extended use. Additionally, its lightweight design and effortless transitions between laptop, tablet, and tent modes provide maximum flexibility and mobility,

Redefining possibilities with powerful performance and groundbreaking on-device AI

Virtual collaboration has never been clearer, thanks to the high-resolution 5MP user-facing camera, front-facing Dolby stereo speakers and AI-enhanced microphones. Whether you're using it in laptop or tablet mode, the garaged stylus provides precise input whenever needed. Plus, Lenovo's integrated pen technology turns any touch interaction into a seamless, natural writing and sketching experience.

The device features a 13.3" 400-nit display with cutting-edge Dual Brightness Enhancement Film (DBEF5) technology—an industry first. This innovation boosts brightness by 33%, reduces power consumption by 16%, and minimizes eye strain, delivering a brilliant, energy-efficient visual experience.

Online collaboration and immersive learning are more seamless than ever with a high-resolution 5MP user-facing camera, Dolby stereo speakers, and AI-driven mic enhancements that minimize background noise for crystal-clear communication.
