

# HP 250R 15.6 inch G9 Notebook PC

## Powered for business

Get connected with the value-priced HP 250R Laptop PC, featuring powerful technology and a streamlined chassis that’s easy to take everywhere you go. Complete business tasks with the latest Intel® Core™ processor<sup>2</sup> and essential collaboration tools.

### Nice and light

The HP 250R G9 Laptop keeps up with mobile workstyles with a thin and light design. The optional 300-nit Full HD display<sup>3,4</sup> with its narrow border design and 81 percent screen-to-body-ratio<sup>5</sup> provides ample space for work or streaming content.

### Built for work and ready for fun

Confidently complete projects with the latest technology including a powerful Intel® processor<sup>2</sup> with up to 32GB DDR4 memory<sup>3</sup>, optional dual channel memory<sup>3</sup>, SD card reader, and solid-state storage.<sup>3</sup>

### Be seen and heard with clarity

Connect with your team, whether they are in the next room or miles away. The HD camera featuring temporal noise reduction helps you stand out, and AI-based noise reduction with dual-array mics provide a high-quality sound experience.

## Featuring

### Large, bright display

Work with ease with the large 15-inch 300-nit panel display featuring low blue light that creates a better overall computing experience.

### Look your best, even in low light

Optimized for video calls in low-lighting conditions. The HD camera provides visual clarity, while temporal noise reduction lowers the effects of visual noise and pixelation, allowing increased definition so you can capture all the details.

### Hassle-free connectivity

Get a fast and reliable connection in dense wireless environments with optional gigabit-speed Wi-Fi 6<sup>7,8</sup> and an optional WLAN 802.11ac/Bluetooth® 5.0 combo.<sup>3,9</sup>

### Quick and stable SSD

Boot up and access apps fast with a high-speed solid-state drive. Efficient and reliable SSDs provide quick file transfers and a snappier experience every time you use your PC.

### Crisp and clear collaboration

Get an effective online call and meeting experience with AI-based noise reduction, which improves collaboration by applying comprehensive, noise-filtering technology to all inbound and outbound audio.

### Tested for reliability and durability

Undergoes MIL-STD<sup>10</sup> testing for hardware and systems to help ensure your HP laptop meets or exceeds HP durability standards.

### Hardened fingerprint authentication

Secure your laptop against hardware and malware threats with the match-on-host fingerprint sensor.<sup>3</sup> Capture, secure, and store your biometric asset, while the host system protects the integrity and privacy of your fingerprint data.

### Help secure critical data

The Trusted Platform Module (TPM 2.0) provides hardware-based encryption keys to help secure your data, e-mail, and user credentials.<sup>11</sup>

### All the right ports

Quickly connect to your wired network and peripherals in the office or at home with a USB Type-C® DisplayPort™ with power delivery, an RJ-45, and HDMI ports. Easily back-up and move data with the fast and convenient SD card slot.

## Footnotes

### Messaging Footnotes

<sup>2</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>3</sup> Optional feature that must be configured at the time of purchase.

<sup>4</sup> Full high-definition (FHD) content required to view FHD images.

<sup>5</sup> Device features 81% screen-to-body ratio. Percent of active plus non-active viewing area to active viewing area plus border. Measured with lid vertical to the desk.

<sup>6</sup> Based on products launched through August 2023.

<sup>7</sup> Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs.

<sup>8</sup> Wi-Fi® supporting gigabit speeds is achievable with Wi-Fi 6 (802.11ax) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.

<sup>8</sup> Wireless access point and internet access required. Availability of public wireless access points limited. Wi-Fi 5 is backwards compatible with prior 802.11 specs.

<sup>10</sup> MIL-STD testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Accidental damage requires an optional HP Accidental Damage Protection Care Pack.

<sup>11</sup> Discrete TPM 2.0 is included.

### Specification Footnotes

<sup>1</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.

<sup>2</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>3</sup> Processor speed denotes maximum performance mode; processors will run at lower speeds in battery optimization mode.

<sup>4</sup> Intel® Turbo Boost performance varies depending on hardware, software and overall system configuration. See [www.intel.com/technology/turboboost](http://www.intel.com/technology/turboboost) for more information.

<sup>5</sup> Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See <http://intel.com/vpro>.

<sup>6</sup> Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

<sup>7</sup> For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows) is reserved for system recovery software.

<sup>8</sup> Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 (802.11ax) is backwards compatible with prior 802.11 specs.

<sup>9</sup> The term "10/100/1000" or "Gigabit" Ethernet indicates compatibility with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/s. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

<sup>10</sup> Intel® Iris® X® Graphics capabilities require system to be configured with Intel® Core™ i5 or i7 processors and dual channel memory. Intel® Iris® X® Graphics with Intel® Core™ i5 or 7 processors and single channel memory will only function as UHD graphics.

<sup>11</sup> Miracast is a wireless technology your PC can use to project your screen to TVs, projectors, and streaming.

<sup>12</sup> FHD/HD content required to view FHD/HD images.

<sup>13</sup> Resolutions are dependent upon monitor capability, and resolution and color depth settings.

<sup>14</sup> All specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

<sup>15</sup> HP Support Assistant requires Windows and Internet access.

<sup>16</sup> 30-day McAfee® Security trial included. Internet access required and not included. Subscription required after expiration. See [www.McAfee.com](http://www.McAfee.com) for more details.

<sup>17</sup> HP Fingerprint Reader is an optional feature that requires Windows 10 or 11 and must be configured at purchase.

<sup>18</sup> For new batteries, actual battery Watt-hours (Wh) may differ from the design capacity and may have a full charge capacity that differs by up to 10, which is typical for lithium-ion batteries. Battery capacity naturally decreases over time and with use, depending on several factors such as battery health management settings, shelf life, temperature, environment, loaded apps, features, system configuration, and power settings.

<sup>19</sup> Availability may vary by country.

<sup>20</sup> Based on US EPEAT® registration according to IEEE 1680.1-2018 EPEAT®. Status varies by country. Visit [www.epeat.net](http://www.epeat.net) for more information.

<sup>21</sup> External power supplies, power cords, cables and peripherals are not Low Halogen. Service parts obtained after purchase may not be Low Halogen.

<sup>22</sup> Molded pulp cushions made from 100% recycled wood fiber and organic materials.

<sup>23</sup> 100% outer box packaging and corrugated cushions made from sustainably sourced certified and recycled fibers.

<sup>24</sup> Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 standard.

<sup>25</sup> Hardware acceleration for CODEC H.265/HEVC (High Efficiency Video Coding) is disabled on this platform, including the current configuration and alternate options.

<sup>60</sup> Depending on the version available for your device and the setting you select, HP Battery Health Manager (BHM) will use a proprietary set of algorithms to optimize battery health during the life of the battery. New Commercial Notebooks come equipped with BHM set to "Let HP Manage My Battery Health" as the default. This setting will reduce charge capacity over time to optimize battery health and mitigate factors that can accelerate battery degradation. As a result of this reduction, battery runtime will decrease over time as available charge capacity is reduced. HP may, at any time, update HP Battery Health Manger to improve available settings, functionality, and performance. Refurbished products may have customized default settings to optimize user experience. For additional information on updating or modifying HP Battery Health Manager settings, please go to [HP.COM/SUPPORT/BATTERY](http://HP.COM/SUPPORT/BATTERY).
