

With the FlexDesk 640 document holder conveniently place documents or digital templates, like tablets and mobile phones on the slightly tilted surface right in front of you.

Easily pull the anti-reflecting satin surface towards you and take notes on it. The smooth-running rails allow the platform to slide forward. The high-quality acrylic material makes the FlexDesk 640 stable, and the transparent design ensures that your desk does not look overloaded. The FlexDesk 640 provides great features like three levels of height adjustment between 110 and 180 mm, anti-slip-feet, foam edge for the outer edge of the hand, high sliding edge for heavy file folders, a load capacity up to five kg, and a hidden pen-tray. Start working in a line with the FlexDesk 640 document holder and increase your working comfort and productivity.

Ergonomic background

Placing documents on the left, right or even directly in front of the keyboard, leads automatically to twisting and bending the neck, and to focus the eyes more often. This puts extra strain on your neck muscles and eyes. This can easily be avoided by placing a document holder between the screen and the keyboard. In this way, you automatically work in one line, because your documents are lying in the perfect viewing angle right in front of you on the inclined surface of the document holder. Your neck and eyes are relieved, and you immediately ensure a much more comfortable and ergonomic screen workplace (source: Van den Heuvel et al. 2007, p. 380.)

FlexDesk 640 ComfortRead Document Holder

Article code

BNEFDESK640CR

Barcode/ EAN-code on product package
