1. Go to Steam Library and right click on the game. Click Manage -> Browse Local Files.

2. You can find the "device_defines" file in the path shown in the image below²

3. Right click on "device_defines" file and click open with notepad to edit it.

4. Add the following text to a line in the notepad and save the changes once added:

```
<device id="{224511F-0000-0000-0000-504944564944}" name="FFB WHEEL V987" priority="100" type="wheel"
/>
```

```
