TGC-5406-GS

Ceramic Contact Grill with Single Push-Turn Button Operation

EAN 6221127475982

GRILL

- 1800 W power with fast heat-up to 280°C
- Push-Turn control with LED display for simple operation
- Ceramic-coated non-stick plates for even cooking and easy cleanup
- Adjustable grill height for all food types
- Angled surface with drip tray for healthier, low-smoke grilling
- Dishwasher-safe removable plates

Grill smarter and healthier with the Tornado TGC-5406-GS Electric Grill—engineered for high performance and easy daily use. Its 1500–1800 W heating system delivers fast heat-up and stable temperatures up to 280°C, ideal for everything from searing steaks to grilling vegetables and toasting sandwiches. Ceramic-coated non-stick plates ensure even cooking and easy food release, while the angled grilling surface with a built-in drip tray helps reduce oil and smoke—for cleaner, healthier meals.

The adjustable grill height accommodates foods of various thicknesses, and the single Push-Turn control with LED display offers simple, intuitive operation with temperature and power in one dial. When you're finished, the removable plates and dishwasher-safe design make cleanup fast and effortless. Compact yet powerful, the Tornado TGC-5406-GS is the perfect countertop companion for everyday indoor grilling.
