Before you begin

Steps

1. Save and close all open files and exit all open applications.
2. Shut down your computer: Click **Start** >  **Power** > **Shut down**.
 -  **NOTE:** If you are using a Linux operating system, see the documentation of your operating system for shut-down instructions.
3. Disconnect your computer and all attached devices from their electrical outlets.
4. Disconnect all attached network devices and peripherals, such as keyboard, mouse, and monitor from your computer.
 -  **CAUTION:** To disconnect a network cable, first unplug the cable from your computer and then unplug the cable from the network device.
5. If the computer or the adapter is being installed on the monitor:
 - a. Disconnect the power and all the display cables from the monitor.
 - b. Remove the stand from the monitor and place the monitor on a clean and soft surface.

Dell Pro Micro Vertical Stand

Steps

1. Follow the instructions in [Before working inside your computer](#).
2. Align the slot on the chassis with the tab on the vertical stand and place the computer on the vertical stand.

NOTE: Ensure to align the slot on the chassis with the tab on the vertical stand to prevent the computer from sliding out of the stand.

3. Route the power cable through the hook on the vertical stand to prevent accidental disconnection of the power cable.

Dell Pro Micro Wall Mount

Steps

1. Follow the instructions in [Before working inside your computer](#).
2. Place the VESA mount on the wall.
3. Install the four self-tapping screws (M4x13) to secure the VESA mount to the wall.

4. Install the two screws (M3x6) to secure the AC adapter sleeve to the VESA mount.

5. Install the four step-screws (M4x4) on the chassis.

6. Align the step-screw (M4x4) with the notches on the wall mount and mount the computer on the wall mount.

7. Place the AC adapter on the AC adapter sleeve.

8. Wrap the sleeve around the AC adapter and insert the retaining tabs into the holes on the AC adapter sleeve at an appropriate level.

Dell Pro Micro Desk Mount

Steps

1. Follow the instructions in [Before working inside your computer](#).
2. Place the VESA mount under the desk.
3. Install the four self-tapping screws (M4x13) to secure the VESA mount under the desk.

4. Install the four step-screws (M4x4) on the chassis.

5. Align the step-screws (M4x4) with the notches on the desk mount and mount the computer on the desk mount.

6. Install the two screws (M3x6) to secure the AC adapter sleeve under the desk.

7. Place the AC adapter on the AC adapter sleeve.

8. Wrap the sleeve around the AC adapter and insert the retaining tabs into the holes on the AC adapter sleeve at an appropriate level.

Dell Pro Micro Pro-2 E Series Monitor Mount

Steps

1. Follow the instructions in [Before working inside your computer](#).
2. Place the monitor on a soft cloth or cushion.
