FEATURES

Triple 360 mm Radiator Support

The top/side/bottom panels can support 360 mm AIO liquid cooler or a custom liquid cooling loop with more than one radiator.

Support Back-Connect Motherboard

Supporting ATX back-connect motherboards enables easy installation without the worry of forgetting to connect cables, which might otherwise require disassembling graphics cards and coolers.

Single piece 270-Degree Panoramic Display

Show off the components by a single piece 270-degree panoramic tempered glass, transforming it into a showcase-style chassis.

Dual Chamber Construction

The dual chamber structure design provides users can build system without difficulty of cable management.
