DESCRIPTION

Charge your latest Apple and Android smartphones or tablets with the EW1321_R1 20W USB-C Fast Charger. Equipped with USB Power Delivery, PPS, and QC3.0 technologies, this compact and lightweight GaN charger is ideal for high-speed charging at home or on the go. It automatically stops charging when your device is fully charged for added safety and energy efficiency.

For Apple devices

The latest iPhones include only a charging cable and no power adapter. The EW1321_R1 is designed to deliver fast charging via USB-C PD: charge your iPhone up to 50% in just 30 minutes when using a USB-C to Lightning cable. Fully compatible with iPhone 15, 14, 13 and earlier models.

For Android devices with PD or PPS support

The EW1321_R1 supports both USB Power Delivery and PPS (Programmable Power Supply), ensuring optimal charging performance for compatible Android smartphones and tablets — including Samsung Galaxy models and others. The charger dynamically adjusts its output to match your device's charging profile for efficient, safe charging.
