

ThinkCentre M70s Gen 6

Powered by up to Intel® Core™ Ultra 7 processors and integrated Intel® AI Boost, this desktop equips professionals across industries with the muscle for data-heavy workloads and intelligent task automation. Designers, analysts, and developers benefit from the optional NVIDIA® GeForce RTX™ 3050, enabling seamless rendering, simulation, and modeling. Meanwhile, up to 128GB of DDR5 memory ensures fast responsiveness when managing large datasets, running virtual environments, or multitasking across productivity apps. From complex CAD projects to AI-assisted content generation, it empowers desk-based professionals to work faster, smarter, and more creatively.

Empowering the modern workforce with a streamlined desktop experience

Whether you run a small business or a department of an enterprise, these desktops are built to handle every workload. Easy to manage, they offer great expandability, rapid processing, and seamless switching between multiple programs.

Engineered for visual clarity and connectivity, it supports up to three independent displays, ideal for financial analysts comparing dashboards, architects referencing blueprints, or educators managing hybrid classrooms. With up to Intel® Wi-Fi® 7 and a wide array of ports including USB-A, USB-C, DisplayPort, and HDMI, users stay fully connected.

The system accommodates up to four drives for tailored storage setups, ensuring fast access and abundant capacity. Built-in security features like discrete TPM 2.0 and an optional chassis intrusion switch safeguard critical assets.

Its compact SFF (8.2L) form factor ensures space optimization without compromising performance. Its sleek design fits easily into any workspace, providing powerful capabilities while maintaining a clutter-free and organized desk.
