Resistant to everyday life

Move Ridge was created with longevity in mind - this is confirmed by a test of 10,000 cycles of connecting and disconnecting the cable, which passed without a hitch. This drive will accompany you for years. And its compact size - just 32 × 75 mm - means that it will fit practically anywhere: in a trouser pocket or the smallest compartment of a backpack, which no one usually uses. Despite its size, it is a really durable disk space.

Lasting memories

We perfectly understand how important souvenirs from travels are - both large and small. Every unique memory, adventure or trip deserves a suitable place. Thanks to Goodram Move Ridge, you can safely store photos, videos or important documents - safely and always at hand. You take care of the moments, we take care of their durability - in the form of a portable SSD drive enclosed in a solid, aluminum housing.

Reliable companion

Durability isn't everything - a lost disk won't do much. Goodram Move Ridge has a special eyelet for attaching it to keys or a backpack. The set includes two lanyards in different colors - choose one and have your portable memory bank always with you.

Fast and spacious

No compromise - Goodram Move Ridge offers up to 2 TB of disk space, which means space for about 500 thousand photos of 4 MB each or about 100 hours of 4K video recorded with a smartphone. Transferring data? Thanks to speeds of up to 2000 MB/s for both writing and reading, file transfer is fast and efficient.

Compatible with your equipment

Regardless of the device you use - Goodram Move Ridge will connect to it without a problem. The disk works with, among others, with PCs, laptops, Chromebooks, tablets, and smartphones with Android or iOS. It's a universal solution for every occasion.

Quality guarantee

When you acquire the Move Ridge SSD, you get a 3-year warranty and access to free technical support. Thanks to rigorous quality testing, Move Ridge guarantees reliability and data security, which is crucial for both work and everyday use.
