

MPN: MC-PCIEX16-CONNECTX-4-Q

Network Card PCIe x16 ConnectX-4 Quad-25GbE SFP28

The ConnectX-4 PCIe x16 network interface card with four 25GbE SFP28 ports is built for high-density, high-throughput networking in data centers and enterprise environments. With support for advanced offloads, RDMA, and virtualization technologies, it enables efficient and scalable performance for storage, cloud, and compute workloads.

- PCIe Gen3 x16 interface for maximum data throughput
- Quad-port SFP28 supporting up to 25GbE per port
- Powered by NVIDIA/Mellanox ConnectX-4 architecture
- Supports RDMA over Converged Ethernet (RoCE) and InfiniBand
- Hardware offloads for NVMe over Fabrics and SR-IOV
- Ideal for high-density cloud, storage, and virtualization environments
- Includes 1 × User's Manual, 1 × CD-Driver, 1 × Low profile bracket

Specifications

Design	Chipset	Mellanox ConnectX-4
	Internal	Yes
	Recommended usage	PC
Network	Maximum data transfer rate	25000 Mbit/s
Ports & interfaces	Connectivity technology	Wired
	Host interface	PCI Express
	Interface	QSFP28
Vendor information	Brand Name	MicroConnect
	Warranty	25 Year(s)
