

MPN: MC-PCIEX1-82573

Network Card PCIe x1 Intel 82573

Single-RJ45

The Intel 82573-based network card is a reliable single-port Gigabit Ethernet adapter designed for legacy systems and industrial applications. With a PCIe x1 interface and a single RJ45 port, it delivers 10/100/1000 Mbps Ethernet connectivity and supports essential networking features. It's a solid choice for users needing compatibility with older platforms while maintaining stable performance.

- Based on Intel 82573 chipset for proven and stable network performance
- Single RJ45 port supporting 10/100/1000 Mbps Ethernet speeds
- PCI Express x1 interface, compatible with x4, x8, and x16 slots
- Supports PXE boot, Wake-on-LAN, and basic VLAN tagging
- Compatible with Windows 7/8/10, Windows Server 2008/2012, and legacy Linux distributions (kernel 2.6+)
- Ideal for legacy systems, industrial PCs, and embedded applications
- Includes 1 × User's Manual, 1 × CD-Driver, 1 × Low profile bracket

Specifications

Design	Chipset	Intel JL82573L
	Internal	Yes
	Recommended usage	PC
Network	Maximum data transfer rate	1000 Mbit/s
Ports & interfaces	Connectivity technology	Wired
	Host interface	PCI Express
	Interface	RJ45 Ethernet
Vendor information	Brand Name	MicroConnect
	Warranty	25 Year(s)
