

MPN: MC-MINIPCI-E-8111H

Network Card MiniPCIE 8111H Dual- 1G RJ45

The Mini PCIe 8111H is a compact and efficient dual-port Gigabit Ethernet card designed for embedded systems, industrial PCs, and space-constrained networking devices. Featuring two Realtek RTL8111H chipsets, it delivers stable and high-performance wired connectivity with essential networking features in a low-profile form factor.

- Equipped with dual Realtek RTL8111H chipsets for dependable 1G Ethernet performance
- Dual RJ45 ports supporting 10/100/1000 Mbps speeds
- Mini PCIe interface for seamless integration into compact and embedded systems
- Supports VLAN tagging, PXE boot, Wake-on-LAN, and checksum offloading
- Compatible with Windows 7/8/10/11, Linux kernel 3.x and newer, and FreeBSD
- Ideal for Mini PCs, industrial controllers, firewalls, and embedded networking applications
- Includes 1 × User's Manual, 1 × CD-Driver, 1 × Low profile bracket

Specifications

Design	Chipset	RTL8111H+ASM1182e
	Internal	Yes
	Recommended usage	PC
Network	Maximum data transfer rate	1000 Mbit/s
Ports & interfaces	Connectivity technology	Wired
	Host interface	PCI Express
	Interface	RJ45 Ethernet
Vendor information	Brand Name	MicroConnect
	Warranty	25 Year(s)
