

SUPERIOR WASHING AND PERFECT DRYING COMBINED
The 8000 PowerCare Washer Dryer uses pre-mixing technology to activate detergent power, providing superior washing results even at 30°C, and in less than 1 hour. Items are dried but not overdried, helping to retain their look and feel.

Product Benefits & Features

POWERCLEAN. COMPLETE STAIN REMOVAL, EVEN IN LOW TEMPERATURES*
PowerClean utilises our pre-mixing technology to ensure that detergent is evenly distributed on your items, which provides proven complete stain removal in under 1 hour.* It also adjusts the drying time according to the load size. Delivering ideal laundry results.

*External test of PowerClean 59 min 30°C programme with 5 kg load shows 100 % stain removal of 59 most common household stains.

Specialcare wash-to-dry. customised care even for wool and delicates
SpecialCare Wash-to-Dry adapts to each fabric type for gentle yet effective cleaning. This Woolmark Blue certified machine, washes and dries everyday items, delicates, and wool. It also restores the water protection of your outdoor garments.

GARMENTS REFRESHED*, WRINKLES REDUCED WITH STEAM REFRESH
Steam Refresh neutralises odours* and reduces wrinkles on garments, including delicates, in just 25 minutes, all without washing. And if you would like an extra boost of freshness, just add our aromatic steam fragrance, for that just washed freshness.

Preciseload— adapts energy and water usage to the load size
ProSense+ automatically adapts the cycle time, along with energy and water usage, in proportion to the size of the laundry load. So, you get customised laundry cycles that save energy and water when washing and drying smaller loads.

* External test show neutralisation of cigarette smoke odour in a Steam Refresh cycle.

The smooth care drum pattern is even gentler on your fabrics*
The Care drum lets garments glide smoothly thanks to its elevated cushion-like drum pattern and optimised lifter paddle. A thin film of water covers the holes during washing. Providing your fabrics with an even gentler laundry experience.

*Internal tests comparing the Care drum to the AEG ProTex drum.

- Washing capacity guide: Suitable for couples or flatmates.
- Condenser dryer: Moisture from the drying cycle is condensed and simply drains away.
- TimeSave: Cuts cycle time by up to half for a faster, flexible wash.
- Quick wash: A quick wash that allows you to wash 3kgs at 30°C in just 20 minutes.
- Aqua control: An internal system which monitors the water level to detect leakage.
- ProSense®: Measures the size of the load and automatically adjusts washing time, energy and water consumption.
- Wash&Dry 60: Wash in 20 mins or wash & dry a 1kg mixed load in just one hour.
