USB-C HUB for conference rooms

Vivolink 4K USB-C HUB – Your all-in-one solution for video conferencing systems. Connect all your equipment, just like you would with a docking station for your computer.

The VLUSBCHUB2V2 is your key to effortless conferencing. Designed as a 4K USB-C Hub, it allows you to connect multiple devices via USB and share content seamlessly on a single screen.

This Hub is designed to be fixed either under, or on top of, the desk to support all connections within a conference setting.

The Hub provides power for the connected device, thus reducing the need for extra unnecessary power cables. DIP switch on product can control powering of USB devices, constant power or auto power that follows HOST connection. The HDMI output delivers both 4K video and sound from the device, while the LAN port provides cabled network connection to the laptop.
