

MPN: MC-DP-2XDP

DisplayPort to 2x DisplayPort female MST Hub Splitter

Unlock dual-display power with the MicroConnect MC-DP-2XDP, a sleek 2-in-1 MST hub that splits one DisplayPort into two for seamless multitasking or expanded viewing. Supporting up to 4K @60Hz on both displays simultaneously, it's perfect for high-resolution workspaces. Built with a durable aluminum shell, 10 cm flexible PVC cable, and powered by the LT8712EXI chipset, it ensures stable, high-quality video output. Compatible with Windows MST and macOS in SST mode, and supports DSC, HDR, and HDCP for enhanced color and clarity. Efficient, portable, and ready for your next display upgrade.

- Single Display 3840*2160@60Hz; Dual Display MST/SST 3840*2160@60
- 10 cm cable
- Aluminum housing, grey color
- Chipset: LT8712EXI
