Sustainable

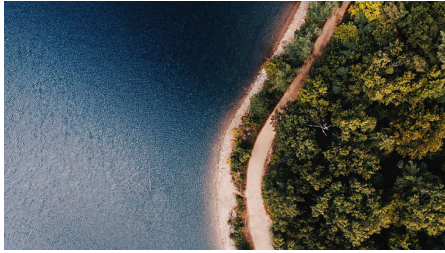

Shaver 3000 Series

Refurbished Wet & Dry Electric Shaver

S3244/12R1

Highlights

Use less. Re-use more.

At Philips, we renew products returned by our customers to give them a second life. With our refurbished products we always strive for the highest quality, and we can offer you a more sustainable alternative while saving you money. Your refurbished shaver comes with a 2-year warranty and full customer support.

5D Pivot and Flex Heads

By flexing and pivoting in five directions, the head follows every curve of your face, cutting just above skin level for a clean, comfortable shave even on sensitive skin.

PowerCut Blades

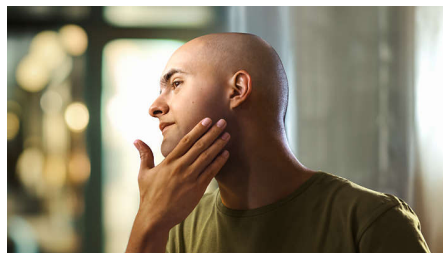

27 self-sharpening blades consistently cut each hair right above skin level for a smooth, even finish every time. Our self-sharpening blades stay like new for 2 years.

Wet and dry shaving

Choose a convenient dry shave, or pair with your favourite foam or gel for a refreshing wet shave, even in the shower.

Suitable for head shaving

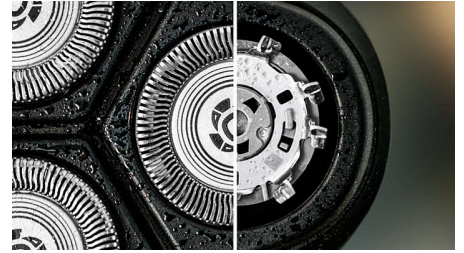

The shaver is designed to be a versatile solution that allows you to confidently shave both your face and head

60 minutes of cordless shaving

In just an hour, the durable Li-ion battery is fully charged for about 20 shaves. In a hurry? A 5 minute quick charge gives you enough power for one shave.

Anti-Corrosion Shaving System

Our shaver blades are made from surgical-grade hypoallergenic steel to resist corrosion, prevent impurities and protect your skin.

Pop-up trimmer

Refine and define your moustache and sideburns to complete your look with the pop-up trimmer.

One-touch open

The shaver head flips open at the touch of a button so you can rinse it clean under running water.

Rubber grip

Never lose your grip. The ergonomic handle with rubber stays secure and comfortable, even when wet.

Shaver 3000 Series

Refurbished Wet & Dry Electric Shaver

S3244/12R1

Highlights

3 level battery indicator

Don't get caught with an empty battery. The battery indicator lets you know if the battery is low, empty or charging.

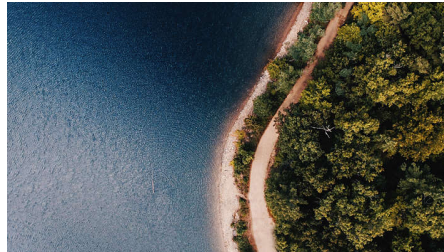

USB-A Charging

At Philips, we drive sustainability in all aspects of product creation. Our ambition is to reduce waste and minimise the number of USB adapters

we put in the market. Should you need an adapter, a suitable supply unit is available via: www.philips.com/support

Made with care for the planet

The packaging of this shaver is plastic-free and made out of 90% recycle material, while our blade-production facility uses 100% renewable electricity.

Travel Pouch

Keep it safe and tidy with the convenient travel pouch. At home or away, you're always ready to go.
