

MPN: VLPOESPLIT5V

PoE Splitter, 5V 2,0A

The VLPOESPLIT5V PoE Splitter delivers reliable power and data connectivity to your non-PoE devices. Designed to split a Power over Ethernet (PoE) signal into separate power and data sources, this splitter outputs 5V at 2.0A, making it ideal for powering a wide range of devices such as IP HDMI Extender, and other network appliances.

- Single PoE port output power is 12W
- Input voltage: 38-56V; Output: DC5V2.4A
- Output connector DC plug 5.5/2.1

Specifications

Design	LED indicators	Yes
	Product colour	Black
Packaging content	Quantity	1
Performance	Cabling technology	10/100Base-T(X)
Ports & interfaces	Ethernet LAN (RJ-45) ports	1
Power	Input voltage	38-56 V
	Output current	2 A
	Output voltage	5 V
	Power over Ethernet (PoE)	Yes
Vendor information	Brand Name	Vivolink
	Warranty	5 Year(s)
