### Selling points

- **Impressive Aux Cable:** UGREEN 3.5MM Audio Cable streams playlist from an aux output(line-out) device to an aux input (line-in) device directly, such as Samsung/Huawei phone to headphone, smart TV to Hi-Fi speaker, iPod to car stereo radio. Aux Jack Lead allows you to enjoy superior music on high-end audio output devices. Plus, this Auxiliary cable is the perfect replacement for headphones/earphones/speakers whose original audio cables get broken.
- **Unrivaled Stereo Sound Quality:** UGREEN Headphone Mini Jack Male to Male Lead is well manufactured and offers a remarkable stereo sound experience to you. The professional 3.5MM Jack to Jack Cord combines enameled copper conductors, 24K gold-plated connectors with a robust TPE jacket. The solid shieldings protect the audio against RF, EM, and ground loop interference during transmission and provide noise-free and ultra-clear sound quality.
- **Enhanced Durability & Flexibility:** 3.5MM to 3.5MM Audio Cable avoid tangles and kinks. The soft TPE jacket makes this stereo aux cable much easier to roll up for storage. Oxygen-free copper connectors and 24K gold-plated plugs not just ensure high fidelity sound and maximum conductivity but add extra durability to this angled aux cord.
- **Universal Use:** With standard 3.5mm male jacks, this Aux Male to Male Audio Jack Cord fits snugly devices of 3.5mm Auxiliary ports, like car stereo radio, MacBook Pro/Air, Surface Pro, iMac, laptop, desktop, Nintendo Switch Lite, PS4, Xbox One, smartphones (like iPhone 6/5/SE, Samsung S10 Plus/S9/S8/S7/A70/A50/A20e/A10, Huawei P30 lite/P smart/Y7/Y6, Moto G7 Power/G6, Sony Xperia L1/XA2/Z5), iPad, iPod, tablet, MP3/MP4 player, smart TV, walkman, Beats/Skullcandy headphone, earphone, headset, speaker, soundbox, amp.
