

## UGREEN 2-in-1 USB-C Card Reader 35506

### Specifications

- \* Input: USB-C 3.1 Gen1 Male
- \* Output: TF/SD 3.0 Card Slot
- \* USB-C 3.1 Gen1 speed up to 5Gbps,
- \* Support theoretical transfer rate of up to 170MB/s
- \* Support memory cards for simultaneous use
- \* 512G measured, theoretical support 2TB
- \* Supports hot-swapping
- \* Supports Windows/Mac OS/Linux

### Selling points

- **Fast Data Transfer:** The Ugreen CM265 reader offers data transfer speeds of up to 5Gbps, which is 10 times faster than a standard USB 2.0 port. This means that files that normally take several minutes to transfer will now be moved in just a few seconds. With support for cards up to 2TB in capacity and compatibility with Thunderbolt 3 and 4, it is an indispensable tool for those working with large files who need fast, stable transfers.
- **Read Two Cards Simultaneously – Convenience and Time Saving:** Ugreen CM265 allows simultaneous reading and writing of data from two different memory cards (SD/Micro SD), eliminating the need to constantly switch cards. It supports a wide range of cards, such as SD, SDHC, SDXC, Micro SD, Micro SDHC, Micro SDXC, and MMC RS-MMC, making it exceptionally versatile and practical.
- **Plug & Play – Ready to Use Immediately:** You do not need any additional applications, drivers, or external power to use this card reader. Just connect it to the USB-C port on your device, and it will be ready to work. It supports multiple operating systems, including Windows, Mac OS, Linux, Android, and Chrome OS, making it versatile and easy to use.
- **Compatible with a Wide Range of Devices:** The Ugreen CM265 card reader is compatible with various devices equipped with a USB-C port, such as MacBook Pro, iMac, Microsoft Surface, tablets, smartphones (including iPad Pro, iPad Air, Samsung Galaxy, Moto G8/G7), and many more. This ensures that it will work with most of your equipment.
- **Compact and Portable Design:** With its small size and built-in cable, the Ugreen CM265 card reader is easy to carry and does not take up much space. You can take it with you anywhere – to work, for a meeting, or while traveling – without worrying about its storage or ease of use.
