### Selling points

- Advanced protection: The case provides full protection thanks to its raised edges, which are raised 0.9 mm above the camera lens and 0.65 mm above the screen. This effectively minimizes the risk of scratches and damage from everyday use. In addition, the case has a built-in air cushion that absorbs impact to ensure safety during drops.
- MagSafe and durable materials: The case has 38 strong NB52 magnets, which guarantee safe and convenient charging of the MagSafe. In addition, the product is made of high-quality materials, including soft TPU and durable oxidation-resistant PC and acrylic materials, providing long-lasting protection and aesthetic appeal.
