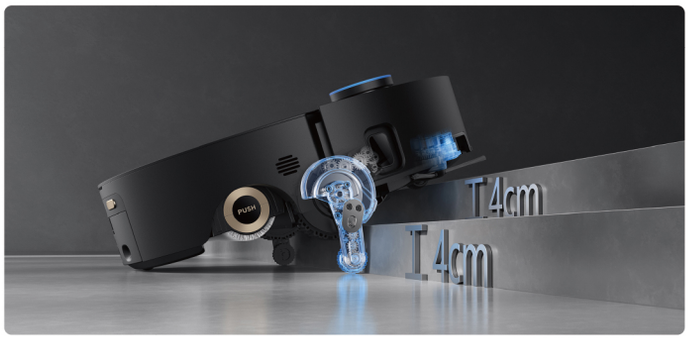
Key Features

Ever-Clean Water, Ever-Gleaming Floors

Unlike dated mops that spread filth, AquaRoll tech rinses the roller mops as they clean floors, keeping them always fresh and clean in real time, cleaning with extra power while keeping odors at bay.

Carpets? Covered

The AutoSeal roller guard is DREAME's smart tech that cares for carpets by automatically sealing the roller mop when carpeted areas are detected, preventing dampening and carpet odors.



Obstacles out of the Way

The FlexRise air suspension system tackles thresholds, rugs, and transitions with ease-clearing up to 8cm* obstacles. This allows Aqua 10 Ultra Roller to clean up dirt in complex areas across various floor types.

Automated 100°C Roller Self-Cleaning

After intensive cleaning, its ThermoHub roller activates a high-temperature self-wash that reaches up to 100°C* to target residues and odors while refreshing itself.
