EMR Stylus Pen — Precision for Your Samsung Galaxy Experience

Transform your device into a true digital canvas.

Our EMR Stylus Pen delivers a natural writing, drawing, and navigation experience using high-precision EMR technology — completely battery-free and with no charging required.

It works seamlessly with a wide range of Samsung devices that support EMR/Wacom-based stylus input, providing smooth control and exceptional responsiveness for enhanced creativity and productivity.

The stylus is not limited to Samsung devices. It is compatible with many brands and models that support EMR technology, including popular S Pen-equipped phones and tablets.

Please refer to the compatibility list in the documents section further down this page for detailed information.

- Battery-free EMR technology
- 4096 levels of pressure sensitivity
- Palm rejection & tilt support
- Ergonomic design

Specifications

Features	Applicability	Universal
