

Print like you mean business

Bring professional-quality printing to your home office. HP OfficeJet Pro printers deliver consistent performance for everyday tasks, making them one of the most reliable printers around. That way, you can focus on your work—not your printer.⁴

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
