— INFORMATION

32" 4K VA panel with USB-C connection (95W), KVM Switch and PiP/PbP

The ProLite XB3294UHSCP-B1 is a 32 inch 4K monitor designed to give you more space, sharper detail, and smoother workflows.

Its VA panel with Ultra HD resolution and a 3000:1 contrast ratio delivers crisp, vibrant visuals. A brightness of 350cd/m², 2ms response time, and Adaptive Sync ensure everything stays smooth and clear, whether you're creating content or working with data.

USB-C (95W Power Delivery), HDMI, DisplayPort, and a built-in KVM switch make it easy to manage multiple devices while powering your laptop. PiP (Picture-in-Picture) and PbP (Picture-by-Picture) modes let you view content from two sources at the same time for more efficient multitasking.

The three side borderless design helps you stay focused and supports seamless multi-monitor setups. The height adjustable stand, built-in speakers, and headphone jack provide comfort and convenience throughout your day.

Certified with TCO, TÜV-GS and EPEAT Silver, it's a smart, sustainable choice for any modern workspace.

Easy multi-device control with KVM

Easily switch between multiple computers using one monitor, keyboard, and mouse, making multitasking smooth and efficient.

Multi-screen setup for a panoramic workspace

Connect multiple ultra-slim bezel monitors to create a panoramic workspace, keep your apps in view, streamline multitasking, and boost productivity.

Reduced eye strain & fatigue

Work, study or play longer without eye fatigue, thanks to flicker-free technology and reduced blue light emissions. These features help minimize eye strain and improve visual comfort, allowing you to stay focused and productive throughout the day.

Double the view, double efficiency

Watch two sources at once. Use Picture-in-Picture to overlay a second feed or Picture-by-Picture to split the screen side by side. Perfect for multitasking, comparing content, or staying in control.
