

## COMPACT CUBE-SHAPED POWER STRIP WITH 3 X 16A SOCKETS AND 3 USB PORTS

Adapt your equipment to your space with our cubic power strip. Whichever way you look at it, it's always useful: you can charge devices, plug in power cables... and for added safety, it has an ON/OFF switch.

In addition to being extremely useful, it has an **attractive, compact design** that gives you more free space.

In addition to being extremely useful, it has an attractive, compact design that gives you more free space.

When only one USB port is used at a time, the output is **automatically adjusted** according to the connected device.

### Specifications:

- Manufactured with GaN.
- Input: 230V - 50Hz, 16A max.
- Outputs:
- **Schuko:**
  - 3 Schuko sockets with earth connection (up to 16A each).
- **USB ports:**
  - 2 USB-A ports + 1 USB-C port
  - Compatible with PD and QC fast charging protocols
  - Integrated PPS technology
  - Individual output (A1, A2 or C). The output automatically adjusts according to the connected device:
    - 5.0V - 3.0A (15.0W max.)
    - 9.0V - 2.22A (20.0W max.)
    - 12.0V - 1.67A (20.0W max.)
- PPS:
  - 3.3-5.9V - 3.0A
  - 3.3-11V - 1.8A
- Combined output (simultaneous use of 2 or 3 USB ports):
  - Maximum combined total: 5.0V - 3.0A (15.0W max.)
  - A1 + C: 15W max.
  - A1 + A2 + C: 15W max.
- Switch: ON/OFF
- Power cable: 1.4 metres.
