

USB 3.0 Front Panel 4 Port Hub - 5Gbps - 3.5in or 5.25in Bay

Product ID: 35BAYUSB3S4

The 35BAYUSB3S4 3.5-inch Front Bay to 4-Port USB 3.2 Gen 1 Panel Hub is TAA compliant and turns any available 3.5-inch computer case front bay into a 4-Port USB 3.2 Gen 1 hub.

Using only a single USB connection, this front panel hub adds four easily accessible USB ports to the front of your computer case through a 3.5-inch bay, or through a 5.25-inch bay using the optional Front Bay Bracket Adapter (BRACKETFDBK) accessory. Each of the added ports is compliant with the USB 3.2 Gen 1 standard which supports up to 5 Gbps of bandwidth (10x faster than the USB 2.0 standard) and up to 900mA of power.

Accessorize with the PEXUSB3S11 PCI Express card to provide an internal USB 3.2 Gen 1 port, so as to keep the external ports free for external devices. Backed by a StarTech.com 2-year warranty and free lifetime technical support.
