

### Philips PicoPix

Pocket projector

- 30 lumens
- with USBQuickLink

PPX2330/EU

## Project your life

The PicoPix pocket projector with USB QuickLink offers a USB plug and socket for direct connection to a wide range of appliances to project your digital content onto a screen up to 60" in size.

### Benefits

#### Bright and colourful image

- LED technology for brilliant colours and high contrast

#### USBQuickLink

- USB plug and socket for power and easy connection

#### Ultra portable

- Play videos directly from your USB-Stick or internal memory

#### Direct video connection

- Share videos right from your mobile devices
- Share your Notebook screen simply via USB connection

### Features

#### LED-Technology

Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses high quality LED technology to project your pictures and videos in brilliant colours and breathtaking contrast.

#### Direct Video connection

Connect your mobile devices and project all your content directly with your PicoPix on a big screen.

#### Integrated MP4 Media player

The integrated MP4 Media player supports all common video and audio formats. This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or a micro SD card.

# PHILIPS

### USBQuickLink

For those who want to share content directly from their camera, smartphone or USB Stick, the USBQuickLink is the easiest connection to all these devices. When on-the-go, just stick the USB plug and socket together and use the USBQuickLink as a handle.

### Video Streaming

Share your Notebook screen showing your Media- or Web content, like YouTube videos or Party pics, with those around you. Just connect your PicoPix to the PC or Notebook via USB and start projecting.

## Specifications
