Sandberg Survivor Powerbank 9in1 144000 is the ultimate portable power station for both adventurers and professionals in the field. The enormous 144,000 mAh battery provides enough energy to keep smartphones, tablets, and laptops running for days – and can even deliver stable power to equipment such as CPAP machines, lights, and coolers. The powerbank features a total of 9 ports for a wide range of charging options: 1 × USB-C port for charging USB-C devices such as laptops, tablets, and smartphones. Can also be used as an input for charging via wall charger or solar panel. 1 × additional USB-C port for fast charging of smaller devices. 2 × USB-A ports for charging phones, cameras, and other equipment. 2 × 12 V DC ports for devices such as lights, pumps, or CPAP machines. 1 × heavy-duty 12V Anderson port for camping gear, coolers, and other high-power equipment. 1 × Anderson input for solar panel connection. 1 × DC input for charging via wall charger or solar panel. It also includes a powerful integrated LED light with both white and red modes – perfect for emergencies, night work, or camping. Built in water-resistant materials, the powerbank features a clear digital display and a solid carry handle. Charge it from a wall outlet or solar panel, and you'll have reliable power for all your devices, wherever you are.
