20-Outlet Rackmount PDU, 1U Server Power Strip with 8x Front and 12x Rear Ports, Mounted Power Distribution Unit for 19-Inch Racks and Cabinets

Product ID: 2030B8H-RACK-PDU-IC

Deliver consistent power to critical equipment in server rooms, AV racks, and test benches. This 1U 20-port rackmount PDU features IEC C13 and IEC C19 outlets, built-in circuit breakers, and versatile mounting options, making it a dependable power backbone for critical deployments.

Designed for dense IT and AV environments, this unit powers up to 20 devices through 16 IEC C13 outlets (4x front / 12x rear) and 4x IEC C19 outlets (front). The built-in 8ft (2.4m) power cord provides the flexibility and reach needed to accommodate various configurations.

User-resettable 15A breakers safeguard each IEC C19 outlet individually and every group of four IEC C13 outlets. If the total current draw exceeds safe operating limits, the integrated circuit breakers automatically cut power to prevent damage to the equipment.

Power delivery unit is TAA-compliant and includes 4-way mounting brackets that provide flexibility for horizontal or vertical mounting. The PDU is compatible with standard 19" EIA-310 racks that are at least 4in (10.1cm) deep and is constructed from durable, powder-coated SPCC steel for long-term reliability. Additionally, the built-in 8ft (2.4m) power cord provides the flexibility and reach needed to accommodate various configurations.

Certifications, Reports and Compatibility

Applications

Features

• Centralized Rack Power: This rack mounted power distribution unit delivers reliable 240V power for up to 20 devices, ideal for small to mid-sized IT environments, offices, and businesses needing an organized and efficient distribution system

• Maximize Connection Flexibility: Features 16 IEC C13 outlets (4x front / 12x rear) and 4x IEC C19 (front) outlets with individual circuit breakers; 8ft (2.4m) power cord easily reaches distant AC outlets

• Mount Where You Need It: TAA-compliant 1U PDU fits EIA-310 19" racks or cabinets over 4in (10.1cm) deep, or mounts on walls and desks (top/under) with included brackets; Rugged SPCC steel housing with powder-coated finish ensures long-term durability

• Protect Equipment with Circuit Breaker: User-resettable 15A breakers safeguard each IEC C19 outlet individually and every group of four IEC C13 outlets, helping prevent overloads and protect connected devices

• The IT Pro's Choice: Our rack-mount PDUs are lab-tested to ensure enterprise-grade reliability for continuous uptime and optimal performance in edge, on-prem, AV racks, and data center deployments; Backed by free lifetime 24/5 technical assistance

Hardware		
	Warranty	2 Years
	U Height	1U

Power		
	Input Voltage	240V AC
	Plug Type	IEC 60320 C13 Power
		IEC 60320 C19 Power

Physical Characteristics		
	Color	Black
	Material	Steel
	Product Length	1.5 ft [0.5 m]
	Product Width	3.7 in [95.2 mm]
	Product Height	1.7 in [43.3 mm]
	Weight of Product	117.9 oz [3339 g]

Packaging Information		
	Package Length	11.1 in [28.1 cm]

Package Width	20.1 in [51.1 cm]	
Package Height	3.0 in [7.6 cm]	
Shipping (Package) Weight	8.0 lb [3.6 kg]	

What's in the Box

Included in Package	1 - Rack-Mount PDU	
	2 - Mounting Brackets	
	4 - M5 Cage Nuts	
	4 - M5x12mm Rack Screws	
	1 - Product Documentation	

Warranty Information

Warranty	2 Years	

*Product appearance and specifications are subject to change without notice.
