Product Description

Busy professionals often struggle to stay productive and focused amid constant distractions – especially in shared workspaces. Traditional keyboards rarely offer the flexibility or comfort needed for efficient multitasking. The KB515 EQ USB-C/USB-A Wired Keyboard is purpose-built to meet these demands, combining smart functionality with reliable performance. It features a full-size layout with 16 programmable keys for custom workflows, quiet scissor-switch keys for smooth, silent typing, and an integrated Copilot key* for instant AI-powered assistance. Designed for focus, comfort and control, KB515 is an essential tool for smarter work. * Windows only.

Features

- 16 programmable keys, a dedicated AI Copilot key* and Function Lock for seamless multitasking. * Windows only.

- Features a 1.5m (5') wired USB-C® connection with tethered USB-A adapter that ensures zero lag.

- Full-size ISO layout with 110 keys includes a number pad for efficient data entry and function keys to support multitasking.

- Scissor-switch keys provide a quiet and responsive feel, help reduce fatigue and support accurate typing.

- Status lights for Num Lock, Caps Lock and Scroll Lock provide instant visibility into your current settings.

- The plastic used in the outer case of this keyboard is made with 43% post-consumer recycled (PCR) content* and it is shipped in FSC® certified packaging. * Excludes PCB board and dongle.

- Connects effortlessly without software or drivers.

- 3-year limited warranty.
