- Safe and easy food handling

**External lab measurement, based on vitamin C retention rate compared to uncooked broccoli florets.

***For optimal results, use the steam-clean function in the large basket for 15 minutes after each use.

*****Compared to french fries cooked in a conventional deep fat fryer vs. Philips Airfryers with RapidAir technology.

*****Only use glass, aluminium foil, ceramic or stainless steel plates as containers for reheating.

*****Number of recipes may vary per country.

*****Internal lab measurement NA56x with salmon vs. using an A class oven. Results might vary per recipe.

Easily switch from 1 Megabasket to 2 baskets, Versatile Airfrying. Now with Steamfry and Steam, Easy cleaning with Automatic SteamClean, Guidance and support with free HomeID App

Highlights

Flexible Basket for every meal

Whether it's a quiet dinner for two or feeding the entire extended family, you're always prepared. Cook in two separate 3 l + 6 l baskets for everyday convenience, or transform to one massive Megabasket around 10 l for the meals that matter most – big enough for 2.5 kg of fries, 1.9 kg of ribs, or whole chicken. Steamfry, Steam, or Airfry simultaneously for perfect textures every time.

Steamfry for a taste sensation

Steam and airfry work together to deliver results that go beyond crispness – locking in moisture, enhancing tenderness, and creating textures that are both juicy and golden, giving you the best of both worlds. Perfect for golden pizza, crunchy-baked bread, succulent chicken, and roasted veggies with your Airfryer with Steam.

Lock in nutrients with Steam

Steam Technology preserves up to 93% nutrients* while creating silky, tender textures that melt in your mouth. From pillowy dumplings to perfectly steamed salmon, vegetables that stay vibrant and proteins that remain incredibly moist. Healthy cooking that actually tastes amazing and is loved by friends and family.

28 different ways to cook

28 different ways to cook means you can steam vegetables, airfry chicken, bake desserts, grill fish, roast potatoes, reheat leftovers, and even combine steam and airfrying for unique results. Choose from 8 device presets for perfect results every time, or explore additional pre-sets in the HomeID app to get creative. Settings go as low as 40°C and as long as 24 hours for dehydrating and fermentation. The versatility to cook anything your family craves, all in one Airfryer with Steam.

Effortless clean with Steam

Spend more time enjoying meals and less time scrubbing with automatic SteamClean function that no other megadrawer air fryer offers. Steam helps remove fat build-up in the large basket and around the heating element effortlessly, with one button. All removable parts are also dishwasher-safe with non-stick coating. Exceptional cooking results without the exceptional clean-up effort.**

RapidAir Plus Technology

Every bite comes out perfectly golden and evenly cooked. Our unique star-shaped design optimises air circulation to flow not just around food, but through it, ensuring consistently delicious crispy results. Enjoy crispy chicken, crunchy chips and all your favourite foods with up to 90% less fat*** compared to deep frying – whether you're using the extra-large air fryer basket or the dual basket.

Reheat leftovers in 3 ways

Transform yesterday's meal into today's delight with three tailored reheating modes.**** Reheat with Steamfry, Steam, or Airfry to keep chicken crispy, cake moist, and chips golden – exactly like they were when first cooked. Skip the microwave disappointment and enjoy leftovers that taste like they're fresh from your kitchen. Perfect for busy families who meal prep or simply want to enjoy great food twice.

Both dishes ready at same time

When using Philips Megabasket Airfryer as a dual basket, serve complete meals without the stress of juggling multiple timers. One button press automatically synchronises cooking times in both baskets, so your main dish and sides are ready simultaneously – hot, fresh, and perfectly timed. No more cold vegetables while waiting for chicken to finish, or overcooked sides sitting while mains catch up. Family dinners made simple with flawless coordination.

Shake reminder

Don't wonder if your food is cooking properly. Shake reminder tells you exactly when to shake for perfectly even results, so every piece comes out golden and delicious. Whether you're a seasoned cook or just starting out, you'll get consistently perfect results every time, using your Airfryer with Steam. Cooking made simple with intelligent assistance that takes the guesswork out of great meals.
