

Acer Chromebox Enterprise CX15

Intel up to a 12th Gen Intel® Core™ i7 Processor¹

Standard VESA mount kit included

Small Form Factor Chromebox Device

Dual Full-function USB 4 Gen 3 Type-C Ports

1. Specifications may vary depending on model and/or region.

Acer Chromebox Enterprise CX15

The new Acer Chromebox Enterprise CX15 comes with even more performance & features. It's easy to set up for multi-displays, has integrated malware protection, and offers a variety of premium features from Google right out of the box.

Faster Processing

With up to a 12th Gen Intel® Core™ i7 processor¹, you can enjoy a performance improvement of up to 20% over previous generations to better deal with your everyday tasks³.

Ultra-Quick Data Transfer

This Chromebox comes with four USB 3.2 Gen 2 Type-A and two USB 4 Gen 3 Type-C ports, providing you with the newest and fastest USB technology for up to 40 Gbps transfer speeds.

Ports on Display

The full-function USB Type-C and dual HDMI 2.1 ports allow you to display your content on up to four external displays. Configurations that include an extra HDMI or DP port are also available.

Fully Connected

This Chromebox boasts features such as Wi-Fi 6E and an RJ45 2.5G Gigabit Ethernet (2.5GbE) port² that provide you with a quick and stable network connection.

Maximize Your Space

The compact, fitted design allows for numerous placement possibilities. And with a VESA mount kit, you can put this Chromebox just about anywhere.

Chrome Enterprise Upgrade

Chrome Enterprise Upgrade simplifies the way you run your business. Cut costs, simplify operations, reduce security risks, and greatly lower required IT resources by being able to deploy, update and manage all your devices at any scale.

Chrome Enterprise Upgrade unlocks the built-in business capabilities of ChromeOS

Chrome Enterprise Upgrade

Chrome Enterprise Upgrade simplifies the way you run your business. Cut costs, simplify operations, reduce security risks, and greatly lower required IT resources by being able to deploy, update and manage all your devices at any scale.

Drop ship devices

Drop ship, update, and manage all your devices at any scale.

Advanced security

Remotely wipe or disable devices, force re-enrollment, and enable sign-in restrictions to ensure data stays in the right hands.

Manage updates at your own pace

Choose to roll out feature updates gradually or automatically with the added option for long-term support channel.

Reporting and insights

Pull insightful reports including 7-day active metrics, OS versions, and crash reports.

Granular controls

Enable single sign-on, identity-free login, and configure printer and Wi-Fi settings.

Scalable, cloud-based management

Manage devices remotely in the Google Admin console, use third-party UEM solutions, or the Chrome Policy API to manage at scale.

Zero-touch enrollment

Featuring zero-touch enrollment, IT departments will be able to drop ship ChromeOS devices that will be automatically enrolled into enterprise administration as soon as the user connects to the internet.

Really ready out of the box

Once an end user receives the device, all they need to do is connect to the internet, log in, and they're ready to go.

Eliminate time needed for manual enrollment

Zero-touch enrollment ensures that ChromeOS devices are registered to automatically enroll once in the hand of end users. This eliminates the need for manual device enrollment by IT departments or end users.

Built with security in mind

Hardware-backed attestation secures the identity of the device to prevent spoofing attacks.

1.

Specifications vary depending on model.

2.

64-bit software is required to enjoy the advantages of 64-bit processing.

3.

A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.

4.

Memory speed may vary, depending on the CPU, chipset or memory fitted.

5.

1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.

6.

Intel® vPro™ technology is sophisticated and requires setup and activation. Availability of features and results will depend upon the setup and configuration of your hardware, software, and IT environments. To learn more visit: www.intel.com/content/www/us/en/architecture-and-technology/vpro/vprotechnology-general.html.

Acer Group shall not be liable for technical or editorial errors or omissions contained in this document.

As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels". This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
