Description:

- Double PC Setup Simplified: Instantly switch your monitor between a work laptop and a home PC using one DisplayPort™ cable - no unplugging or re-cabling required.
- Effortless Control: One-button switching with plug-and-play operation ensures fast, reliable transitions between devices with no drivers or software needed.

Features:

- Support DP1.4 specification. Video resolution up to 7680x4320P at 60Hz.
- Support HDR, DSC and HDCP pass-through.
- The toggle button can quickly switch between 2 video sources or 2 monitors, and the blue LED indicators on both sides indicate which port is chosen to work.
- The longer/thinner the cable, the greater the risk of signal instability. To ensure maximum performance, use our Club 3D® cables.
- Power can be drawn from the connected device through the DP connector. If some devices are not compatible with the power supplied via the DP male port, it is possible to supply power to the switch via the Type-C® female port instead.
