

**INFORMATION**

## **Professional Grade Small Format Signage, optimised with on-board iiSignage<sup>2</sup> Content Management System**

The ProLite S2425AS-B1P is a 23.8" Android display built for stable, secure content presentation in retail and commercial environments. Designed purely for displaying content, it is perfectly suited for supermarkets, shops and information points where interaction is not required. Its high-brightness Full HD IPS panel delivers up to 500cd/m<sup>2</sup> for excellent visibility, even in bright locations, while Power over Ethernet (PoE) simplifies installation and reduces cabling.

iiyama guarantees compatibility with the platform for a minimum of 5 years, ensuring long-term reliability and peace of mind for professional installations.

## Compact design

A perfect balance between screen size and slim design. Its narrow profile enables flexible placement in retail stores, supermarkets, and public spaces, where it fits effortlessly into aisles, promotional zones, or wall-mounted installations. The slim housing ensures high visual impact while maintaining a clean, unobtrusive look.

## Android OS

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.

## Connectivity

The RJ45 (LAN) connector supporting Power over Ethernet technology (POE) allows to provide both data connection and power by a single cable, which simplifies installation in areas where many cables would interfere with the environment.

### 4 SIMPLE STEPS TO REACH YOUR AUDIENCE

## iiSignage<sup>2</sup>

iiSignage<sup>2</sup> is our digital signage content management platform to easily show and control your content and to manage your displays in a secure way. The Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely.
