

**INFORMATION**

## Professional Grade Small Format Signage, optimised with on-board iiSignage<sup>2</sup> Content Management System

The ProLite S2225AS-B1P is a 21.5" Android-based display created specifically for reliable content playback in professional environments. This specialist signage display is ideal for supermarkets, retail stores and public spaces where clear, continuous visual communication is required. The Full HD IPS panel with 500cd/m<sup>2</sup> brightness ensures excellent visibility, while Power over Ethernet (PoE) allows for a simple and efficient installation using a single cable for power and data.

iiyama guarantees compatibility with this platform for a minimum of 5 years, ensuring long-term reliability and peace of mind for professional installations.

## Compact design

An ultra-compact form factor, making it ideal for environments where space is limited but visibility is essential. Its slim and lightweight design allows seamless installation on shelves, end caps, counters, or narrow wall areas. Perfect for retail stores, supermarkets, and hospitality spaces, this compact display delivers clear digital messaging without disrupting store layouts or customer flow.

## Android OS

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.

## Connectivity

The RJ45 (LAN) connector supporting Power over Ethernet technology (POE) allows to provide both data connection and power by a single cable, which simplifies installation in areas where many cables would interfere with the environment.

### 4 SIMPLE STEPS TO REACH YOUR AUDIENCE

## iiSignage<sup>2</sup>

iiSignage<sup>2</sup> is our digital signage content management platform to easily show and control your content and to manage your displays in a secure way. The Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely.
