INFORMATION

24” Full HD In-cell PCAP 10pt interactive Touch Panel PC with Android OS, IPS panel technology, anti glare coating, PoE Technology and iiSignage²

The ProLite TW2424AS-B3P interactive Touchpanel-PC is a perfect choice for high-use environments. The IPS panel, integrated in a slim and elegant bezel, delivers both excellent colour performance with wide viewing angles and noticeably sharper images. The In-cell 10tp PCAP touch technology ensures a fluid and natural touch experience. This monitor can operate in landscape, portrait and face-up orientation in 24/7 operating time.

Thanks to the pre-installed Android operating system, it is possible to easily customize the monitor by installing applications directly to it. In combination with the 32GB storage, Wi-Fi connection, LAN (RJ45) and Bluetooth connectors, it makes the monitor especially suited for POS systems or information points in retail shops to educate customers about your products, as well as virtually limitless smart home applications. Thanks to Power over Ethernet (PoE), both power and data are delivered through a single cable, simplifying installation and reducing additional cables.

Additionally, it integrates effortlessly with iiSignage², iiyama’s Content Management System (CMS), giving you full control over your messages and advertising.

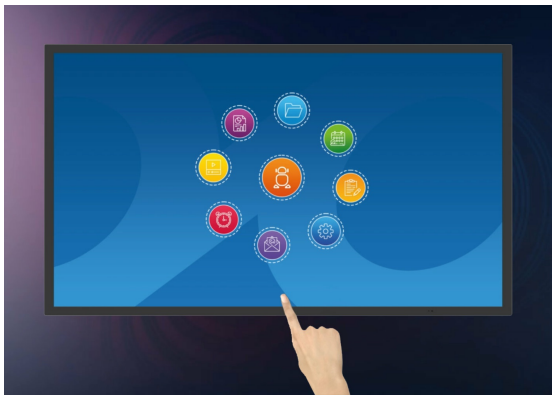

Elegant Design meets Smooth Interaction

Elegant by design, vibrant in every detail and smooth response to every touch. With its slim, modern appearance and crisp, vivid colors, it creates an engaging user experience while blending naturally into a wide range of environments. Its flexible, app-ready platform also makes it easy to tailor the display to different applications, from retail and information points to showrooms, hospitality and interactive installations.

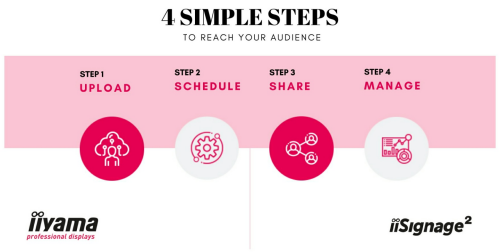

Connectivity

The RJ45 (LAN) connector supporting Power over Ethernet technology (POE) allows to provide both data connection and power by a single cable, which simplifies installation in areas where many cables would interfere with the environment.

Android OS

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.

iiSignage²

iiSignage² is our digital signage content management platform to easily show and control your content and to manage your displays in a secure way. The Content Management System (CMS) gives you total control of your messaging and advertising remotely and safely.
