- Specifications vary depending on model.
- 64-bit software is required to enjoy the advantages of 64-bit processing.
- A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.
- Memory speed may vary, depending on the CPU, chipset or memory fitted.
- 1 GB is 1 billion bytes, 1 TB is 1000 GB. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.
- EPEAT® registration varies by country and configuration. See <http://www.epeat.net/> for registration status for each country.

In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region.
