

# HP ZGX Nano G1n AI Station

## AI supercomputing goes Nano

Accelerate AI workflows with HP ZGX Nano and ZGX Toolkit<sup>1</sup>, high-performance local compute combined with a curated open-source stack for prototyping, fine-tuning and inferencing. Built-in IP discovery, model export and local serving reduce friction, ensuring repeatable, deployment-ready results.

### Big AI performance. Tiny footprint.

Prototype, fine-tune, and inference models of up to 200B parameters locally. Powered by NVIDIA® GB10 Grace Blackwell Superchip<sup>2</sup> and 128 GB of coherent unified memory, the HP ZGX Nano delivers 1,000 TOPS of FP4 AI performance in a compact desktop.

### HP ZGX Toolkit: Accelerate time to results

Move from idea to deployment faster. The ZGX Toolkit<sup>1</sup> streamlines AI workflows by pairing powerful local compute with open-source tools, built-in discovery, and easy export—helping teams cut friction, boost productivity, and scale results anywhere.

### Offload AI workloads without the cloud

Pair existing laptop and desktop systems—Windows, Mac, or Linux—with a network-connected HP ZGX Nano. Get developer-grade performance without data center queues and costly cloud instances, minimizing latency and keeping sensitive information local.

\*Product image may differ from actual product

## Sustainability in action

### Advance edge AI solutions

Realize the true potential of edge AI solutions. From real-time computer vision to running agentic and domain-specific models locally, get the performance needed to deploy intelligent, responsive solutions directly where data is generated.

# HP ZGX Nano G1n AI Station

## Featuring

### Big AI performance. Tiny footprint.

Prototype, fine-tune, and inference models of up to 200B parameters locally. Powered by NVIDIA® GB10 Grace Blackwell Superchip<sup>2</sup> and 128 GB of coherent unified memory, the HP ZGX Nano delivers 1,000 TOPS of FP4 AI performance in a compact desktop.

### HP ZGX Toolkit: Accelerate time to results

Move from idea to deployment faster. The ZGX Toolkit<sup>1</sup> streamlines AI workflows by pairing powerful local compute with open-source tools, built-in discovery, and easy export—helping teams cut friction, boost productivity, and scale results anywhere.

### Offload AI workloads without the cloud

Pair existing laptop and desktop systems—Windows, Mac, or Linux—with a network-connected HP ZGX Nano. Get developer-grade performance without data center queues and costly cloud instances, minimizing latency and keeping sensitive information local.

### Advance edge AI solutions

Realize the true potential of edge AI solutions. From real-time computer vision to running agentic and domain-specific models locally, get the performance needed to deploy intelligent, responsive solutions directly where data is generated.

### NVIDIA® DGX™ OS and AI software stack

Hit the ground prototyping, fine-tuning, and inferencing with familiar NVIDIA® DGX™ OS and integrated NVIDIA® AI software stack purpose-built for modern AI development.

### NVIDIA® GB10 Grace Blackwell Superchip

Get up to 1000 TOPS of AI compute at FP4 precision with an NVIDIA® Blackwell GPU. Supercharge data preprocessing and orchestration with a Grace 20-core Arm CPU.<sup>2</sup>

### Unified system memory

Run AI development and testing workloads with AI models of up to 200 billion parameters at your desk with 128 GB of coherent unified system memory.

### Fast, secure storage.

Choose between 2 or 4 TB of NVMe M.2 self-encrypted storage to work efficiently with large files and keep more of your data local and secure.<sup>3</sup>

### NVIDIA® ConnectX™ Networking

Work with even larger AI models locally—up to 405 billion parameters—by connecting two HP ZGX Nano systems together to scale local compute resources.<sup>4</sup>

### Tiny AI powerhouse

Measuring at 150mm L x 150mm W x 51mm H, this new class of desktop is purpose-built for AI development yet fits in the palm of your hand.<sup>5</sup>

### HP ZGX Toolkit for AI

Get open-source frameworks, MLflow tracking, and Ollama testing. With instant discovery, sync, and export, train locally, track results, and deploy with cloud, data center, or workstation.<sup>1</sup>

### HP ZGX Nano for Secure & Regulated Environments

Get the same powerful compute - without bluetooth or WiFi radios, designed for environments with heightened security requirements.

## Accessories and services (not included)

HP 725 Multi-Device  
Rechargeable Wireless  
Keyboard

Work confidently with tech that keeps you productive, whenever and wherever. This thoughtfully-designed multi-device wireless keyboard works as hard as you do with ultra-fast charging supercapacitor technology, seamless connectivity, and customization.

**Product number: 9T5B2AA**

<sup>1</sup> Fast charging is based on USB Type-C<sup>®</sup>-- 3.0 port (5V, 2.5A). The actual charging time may vary depending on the port type and environmental conditions. Usage life is an estimate and varies depending on many factors, including number of active, idle and asleep hours of use, number of applications running, environmental conditions, and features used; actual usage life will vary with usage and environmental condition.

<sup>2</sup> USB-C to USB-A adapter cable included.

HP 515 Ultra-Fast  
Rechargeable Wireless  
Mouse

Recharge the way you work with the HP 515 Ultra-Fast Rechargeable Wireless Mouse. Charge in 3 minutes and track on almost any surface<sup>2</sup>, with accurate control and across multiple operating systems, to maintain productivity wherever work takes you.

**Product number: 9C2F7AA**

<sup>1</sup> Fast charging is based on USB Type-C<sup>®</sup>-- 3.0 port (5V, 2.5A), the actual charging time may vary depending on the port type and environmental conditions.

<sup>2</sup> Glass surface may affect functionality.

## Footnotes

### Messaging Footnotes

- <sup>3</sup> 2TB or 4TB storage configuration must be selected at time of purchase.
- <sup>4</sup> Requires compatible QSPF cable. Sold separately.
- <sup>5</sup> Height excludes feet.
- <sup>1</sup> The HP ZGX Toolkit is provided free of charge. Use requires a client device running Windows 11 or Ubuntu 24.04 (or later) with Visual Studio Code installed and host device ZGX Nano. The client device must be x86-based, but otherwise there are no restrictions regarding hardware specifications or device manufacturer. Availability may vary by region and is subject to applicable local laws, regulations, and restrictions.
- <sup>2</sup> Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations.

### Specification Footnotes

- <sup>1</sup> Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations.
- <sup>2</sup> 2TB or 4TB storage configuration must be selected at time of purchase.
- <sup>5</sup> Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 7 (802.11BE) functionality requires compatible Windows 11 24H2 OS, compatible processor, and separately purchased Wi-Fi 7 router to support backward compatibility with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported.
- <sup>6</sup> Recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal parts over 25 grams.
- <sup>7</sup> Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT standard for computers, IEEE 1680.1-2018 standard.
- <sup>8</sup> HP paper and fiber based packaging for PCs, displays, home and office print, and supplies is reported by suppliers as recycled or certified, with a minimum of 97% by volume verified by HP. Packaging is the box that comes with the product and all paper-based materials inside the box. Packaging for commercial, personal systems accessories, and spare parts is not included.
